

# Feed Shortage 2018

**Australian's fodder market continues to be tight. Plan ahead and make informed decisions with these tools and resources.**

Dairy Australia has resources available to support farmers. Ranging from feed planning and budgeting, to the latest market information. When hay and grain prices are high, nitrogen can be a relatively cheap source of additional feed. Read our fact sheet and watch the video below on how to maximise spring feed with nitrogen.

## Using Nitrogen to maximise spring feed

### Tools and Resources

To find out more about the current situation and relevant tools that can assist you to plan, prepare and act for spring and the year ahead we have provided the following resources.
